

Conclusions

- PFAS-free protection in high specification coatings
- PolyTuf 1229 provided similar pencil scratch hardness to Polyfluo 190
- Superior Taber abrasion performance versus Polyfluo 190 and Polyfluo 900 with only **22.3 mg weight loss after 2,500 cycles**

Industrial Wood finishes

- Burnish and abrasion resistance:
 - Satin and matte OEM kitchen cabinets/casework
 - Pre-finish factory wood
 - Composite/laminate flooring

GI, Protective & Marine

- Superior abrasion resistance (Taber, Falling Sand, RCA Wear)
 - Heavy machinery
 - ID/OD Pipe
 - Offshore Platforms/steel structures
 - OEM equipment

USA: **Carboline (RPM)**

PolyTuf 1229 Ceramic
fortified LDPE

Vinyl ester linings – storage
tanks
